

PUBLIC OUTREACH MEETING AGENDA

Date: 3/30/2023

Time: 3:00pm

Location: 71 Trevarno Road

Project: Trevarno Rd Sewer & Water Improvements Project,
CIP Project No. 2019-60

INTRODUCTIONS

- City of Livermore
 - Project Manager: Far Levers, fslevers@livermoreca.gov, 925-960-4515
 - Program Manager: Mallika Ramachandran, mrachandran@livermoreca.gov, 925-960-44511
 - Construction Inspector: Gary Marhofer, gmarhofer@livermoreca.gov, 925-580-8315
 - City Construction Management Consultant: Alec Nicholas, avnicholas@livermoreca.gov
- Design Engineer (RJA)
 - Project Manager: David Terhune
- Contractor
 - Paulson Cox Construction: Matthew Cox
- Resident Round Table Introduction
- Sign in sheet

GOALS FOR TODAY'S MEETING

- Inform Residents of project impacts and schedule
- Provide you with contact information and website information for future questions and concerns
- Answer any questions we can at this time about the construction process

PROJECT SCHEDULE

- Notice to Proceed slated for 4/17/2023
 - First few weeks of work will include surveying and potholing
- Construction expected to proceed between April and November 2023 with close out items being completed in December 2023.

PROJECT SCOPE & IMPACTS

- Contractor will be installing an 8" water line along the South side of Trevarno Road and an 8" sewer line along the North side of Trevarno Road. Including demolition and replacement of fire hydrants, laterals, cleanouts and water meters.
- Potential minor root trimming may be required in some areas to install utilities
 - Any disturbed landscaping or irrigation will be replaced in kind prior to project completion
- Contractor will be saw cutting existing roadway, median and curb in order to install utilities
 - Any disturbed roadway, median and curb will be replaced in kind prior to project completion

- Construction & Noise Hours: 7:00am to 5:00pm
- Contractor will be occupying portions of the median during construction
- Potential lane closures will occur with construction equipment and traffic control utilizing flagmen
 - Residents will be informed ahead of time of impacts
- Upon completion of new sewer and water systems
 - Each home owner will be required to have their private contractor visit the site and tie-in to the installed cleanouts and water meters
 - Each home owner will be required to abandon the sewer 6" main, laterals and any manholes within their property boundaries (either full removal or slurry and capping of existing line)
 - City has copies of individual lot layouts for reference
- Homeowners must complete the abandonments in a timely manner so Contractor can abandon the remaining water and sewer laterals along Trevarno Road within the contract completion date
- Upon completion of the project, contractor will slurry and re-stripe entire roadway

PROJECT MAIN POINT OF CONTACT

- Please direct all questions and concerns to Gary Marhofer, gmarhofer@livermoreca.gov, 925-580-8315
 - If you cannot reach Gary, please feel free to contact Far Levers fslevers@livermoreca.gov, 925-960-4515

WHAT ARE WE DOING TO MITIGATE IMPACTS TO RESIDENTS

- We will provide ongoing one on one communication to each resident, informing them about where we are working and what impacts they can expect
 - Please make sure your contact information is up to date in the sign in sheet
- Additional and up to date information will be found at the Project website: www.livermoreca.gov/trevarno
- It is expected contractor will maintain access along Trevarno Road for the duration of the project unless circumstance arise that requires temporary closure
- We will inform you of any potential road closures
- It is expected that contractor will maintain a clean worksite and leave the work site clean at the end of the work day
- There will be temporary construction noise and dust during demolition activities. If possible, park your cars in the garage.
- Access will be allowed for emergency ingress and egress as well as trash pickup.
