Re: Crosby Property - Cities of Dublin and Livermore Collaboration

Dear Rachel:

The Cities of Dublin and Livermore are writing jointly to inform you that the two cities are working collaboratively to reach a compromise in planning for the area known as the Crosby property including the development of a roadway extension to connect the two communities.

In September 2023, the Cities of Dublin and Livermore independently submitted a response to Municipal Service Review (MSR) surveys. Each jurisdiction requested a Sphere of Influence change for the same territory, known as the Crosby property. The cities are committed to facilitating the extension of Dublin Boulevard and North Canyons Parkway to link the two communities and provide an opportunity to meet shared mobility goals. As such, we are negotiating the most effective ways to achieve our shared goals of:

1. building the road
2. maintaining open space and an appropriate view corridor
3. ensuring orderly and visually attractive development in the most practical areas

We are committed to achieving a compromise by Summer of 2024 which includes identifying which areas to annex into Dublin or Livermore's jurisdictional boundaries and/or remain in unincorporated Alameda County.

Please continue to inform the Cities of Dublin and Livermore of the status of the MSR, the evaluation process, and any other related notices, documents, or meetings. If you have any questions or need additional information regarding the ongoing negotiations described above, please contact either:
