UCR AND PART I & PART II CRIMES

Uniform Crime Reporting Statistics:

The Livermore Police Department reports crime occurring in the city based on the FBI's Uniform Crime Report (UCR) standard. UCR is a statewide program designed to provide a nationwide view of crime based on the submission of statistics by law enforcement agencies throughout the country. The UCR program classifies crime into two groups: Part I and Part II offenses.

Each participating agency is required to report Part I crime on a monthly basis. Monthly crime statistics are reported to the California Department of Justice, which will in turn forward the information to the FBI. UCR data is used in law enforcement administration, operation and management, as well as to track the fluctuations in the level of crime throughout America and the city of Livermore.

Part I offenses are selected for submission to the DOJ because they are considered to be the crimes most likely reported, and considered as crimes that occur at a sufficient frequency for comparative purposes. These offenses are broken down further into two classifications: violent crimes and property crimes. Violent crimes are defined in the UCR program as those offenses which involve force or threat of force.

TRANSPARENCY & ACCURACY

TRANSPARENCY

The Livermore Police Department is committed to fostering a culture of transparency and accountability throughout the Department and with the community it serves.

This information is made available to members of the public, the media, law enforcement partners and other stakeholders which allows for honest analysis related to the quality work of our employees.

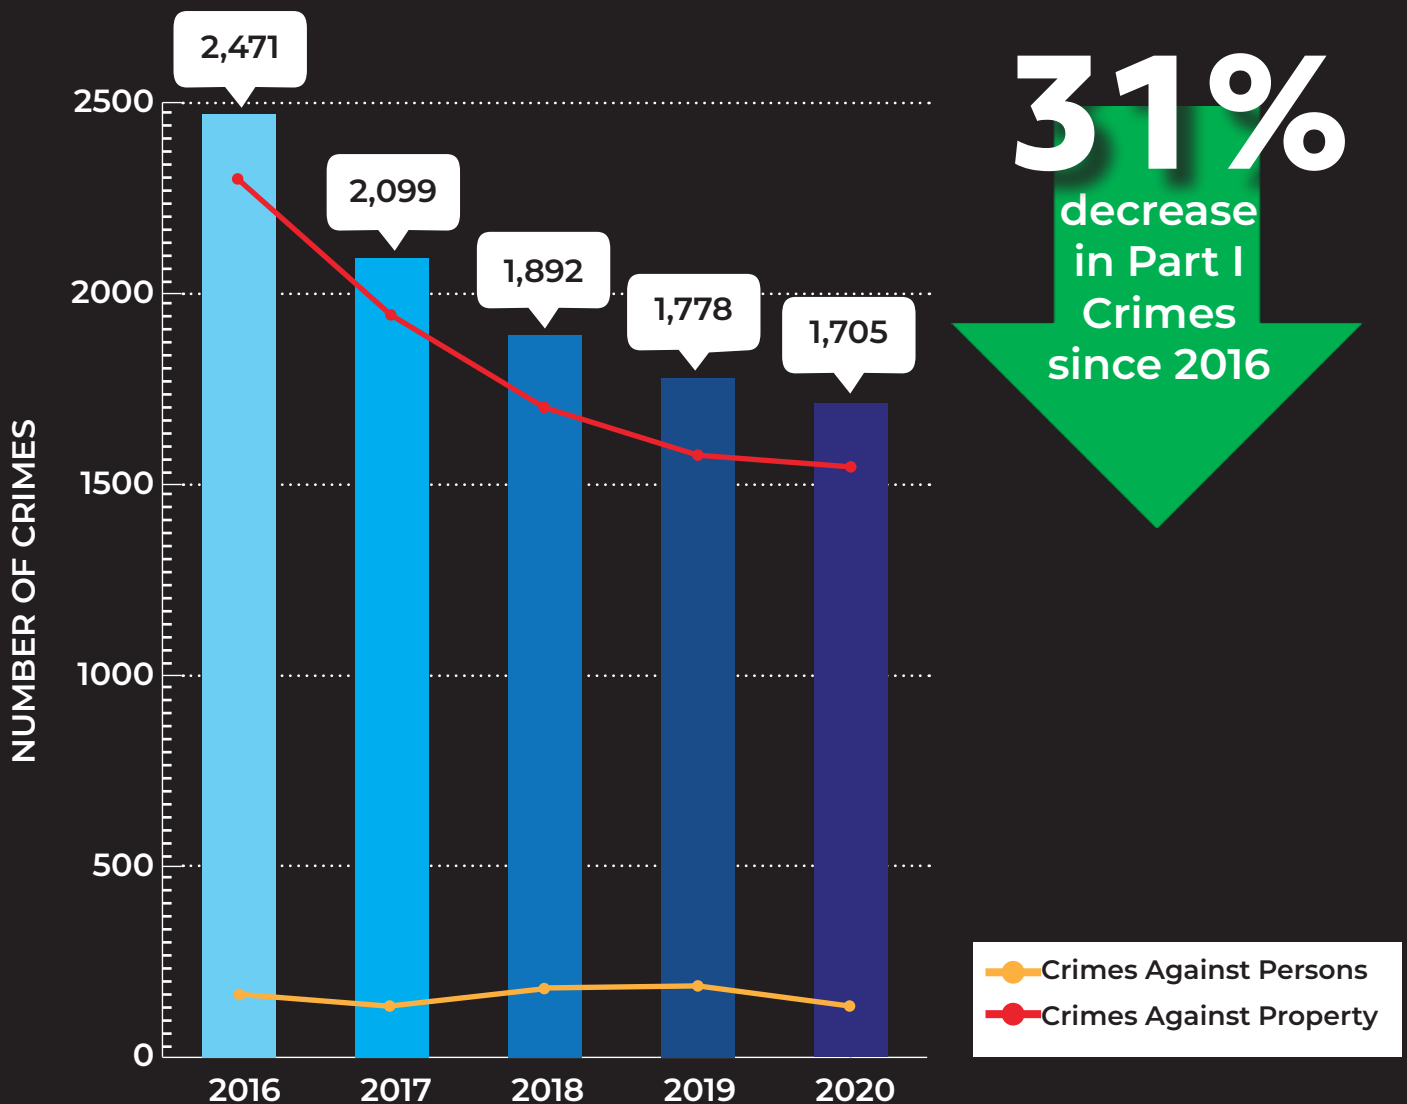

Transparency with the public enhances the trust of community members in the personnel & operations of the Livermore Police Department.

ACCURACY

Although every reasonable effort is made to verify data, accuracy is subject to the constraints of the report generation process as well as the manner, format, point in time of any query and the policy in force at the time.

Additionally, follow-up investigations frequently change crime classifications.

LIVERMORE HISTORICAL CRIME STATISTICS 2016 - 2020

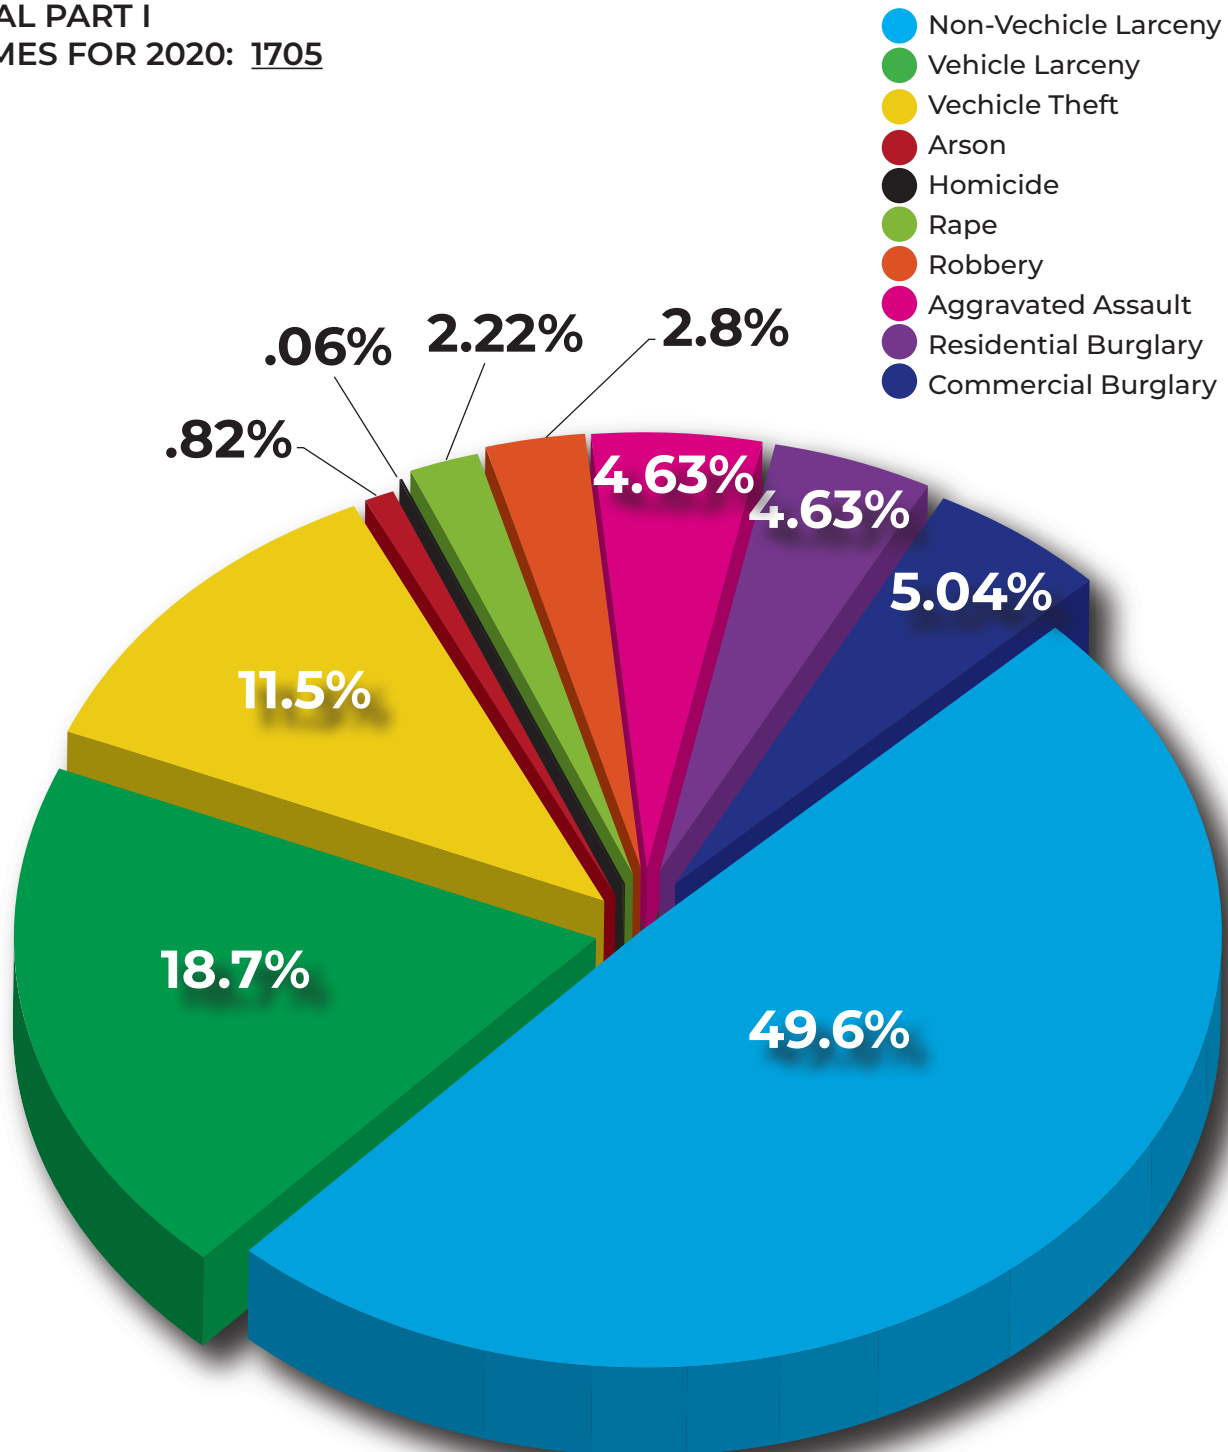

Five Year Averages

The Annual Part I Crime Report compares crime data over the five-year period of 2016 – 2020 to account for larger variations and anomalies month-to-month, and year-to-year. (Note: Five-year averages are rounded to the nearest whole number). The data presented reflects the Hierarchy Rule, which requires that only the most serious offense in a multiple-offense criminal incident be counted.

2020 CRIME STATISTICS

PART I CRIMES BREAKDOWN

TOTAL PART I
CRIMES FOR 2020: 1705

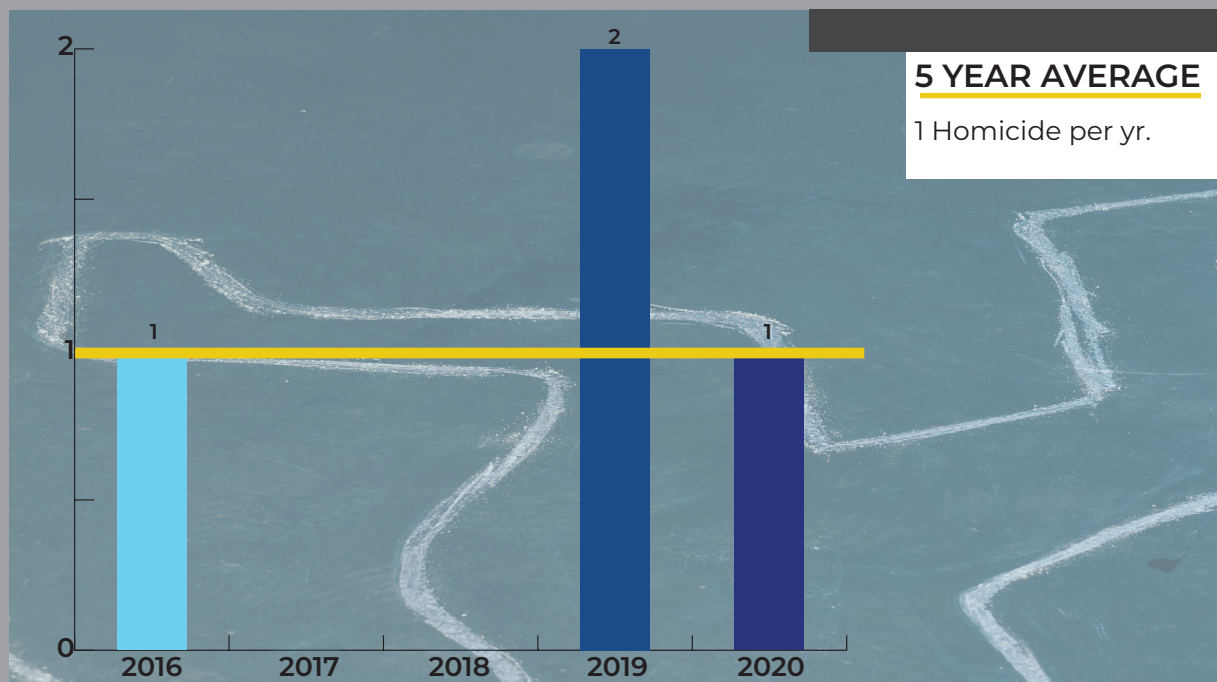

HOMICIDE

DEFINITION: Includes murder and non-negligent manslaughter. The FBI's complete definition can be found [here](#).

2016-2020 HOMICIDES

2020 HOMICIDES BY MONTH

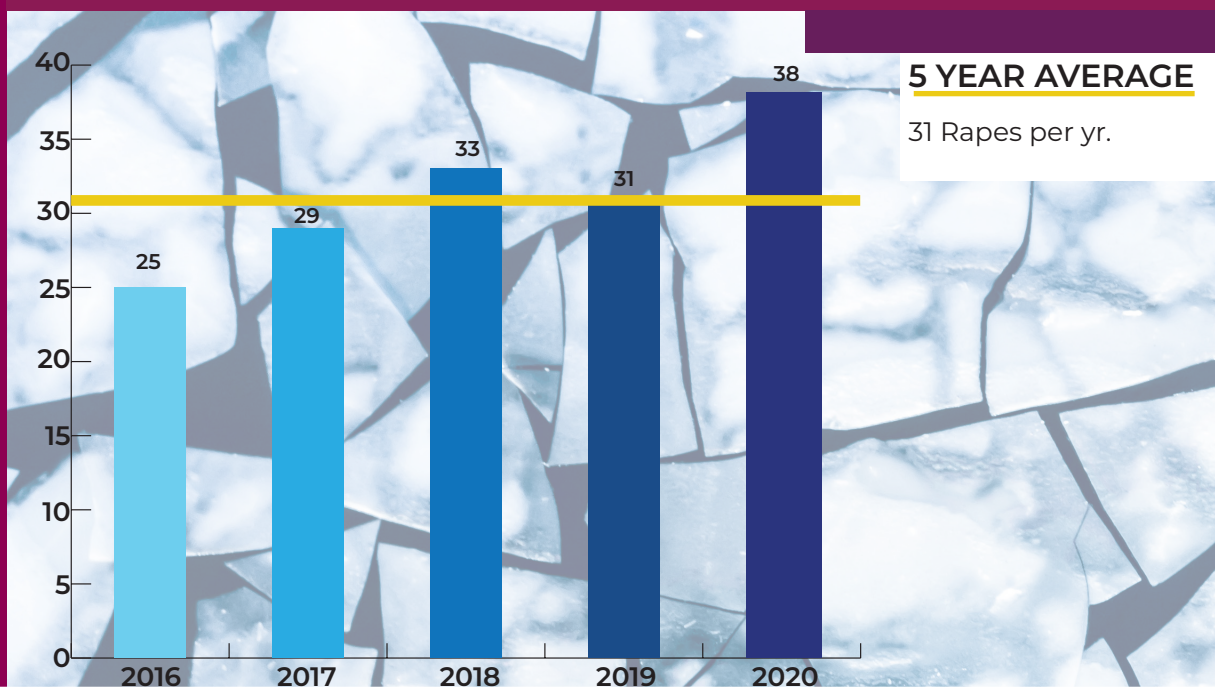

RAPE

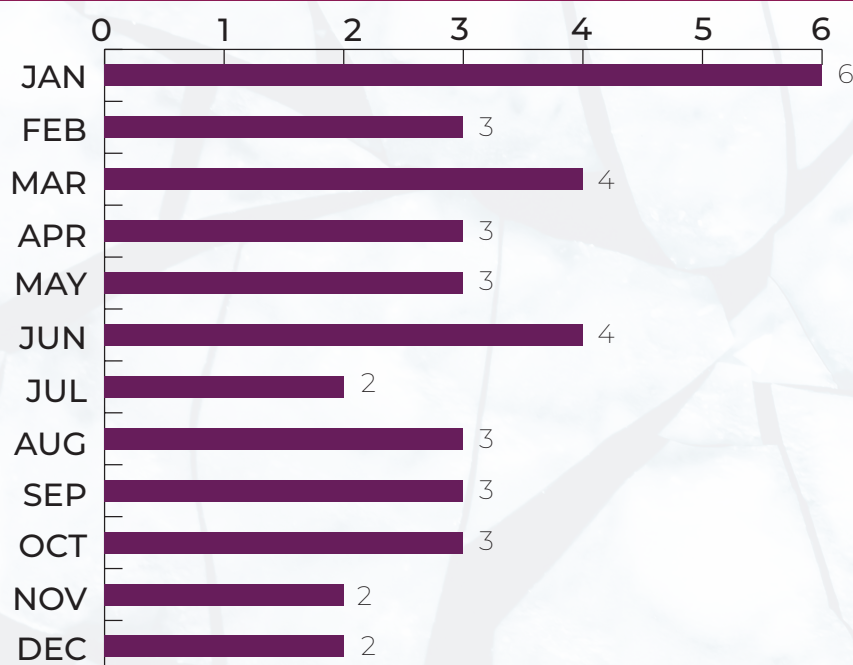

DEFINITION: Rape including attempts (not including statutory offenses). In 2013, the FBI revised the definition of rape, which now includes sexual assaults of males and other forms of sexual penetration. The complete definition can be found [here](#).

2016-2020 RAPES

2020 RAPES BY MONTH

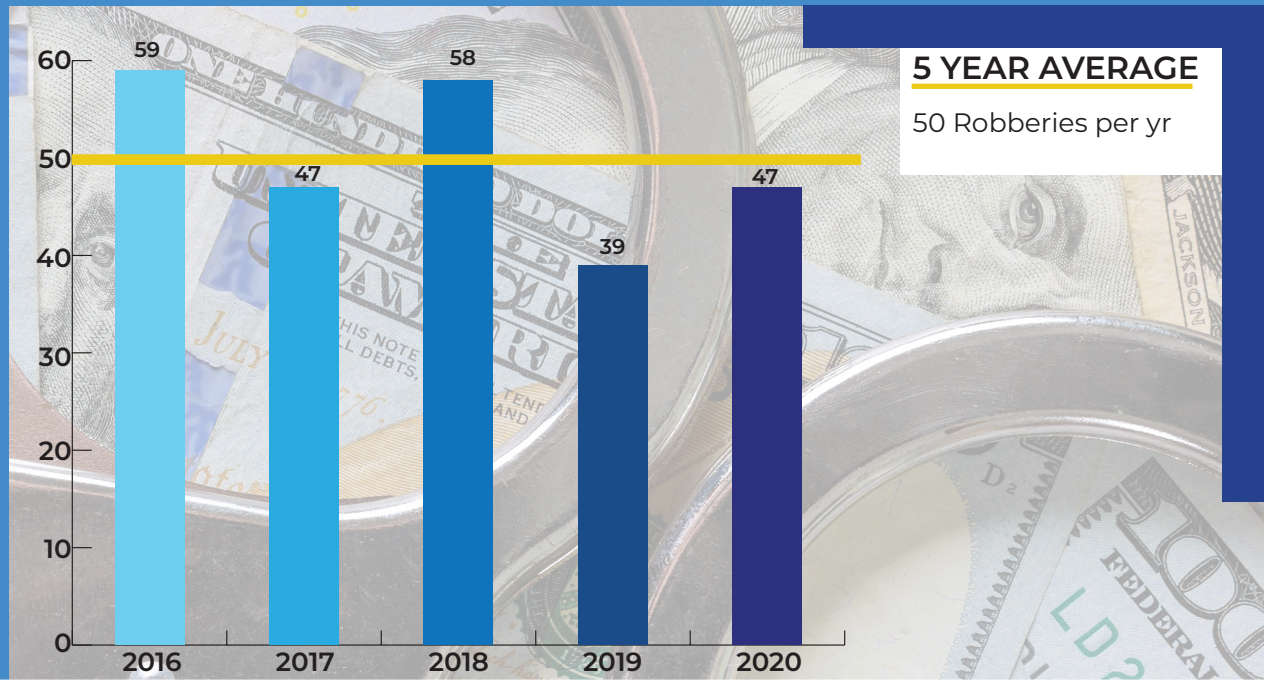

ROBBERY

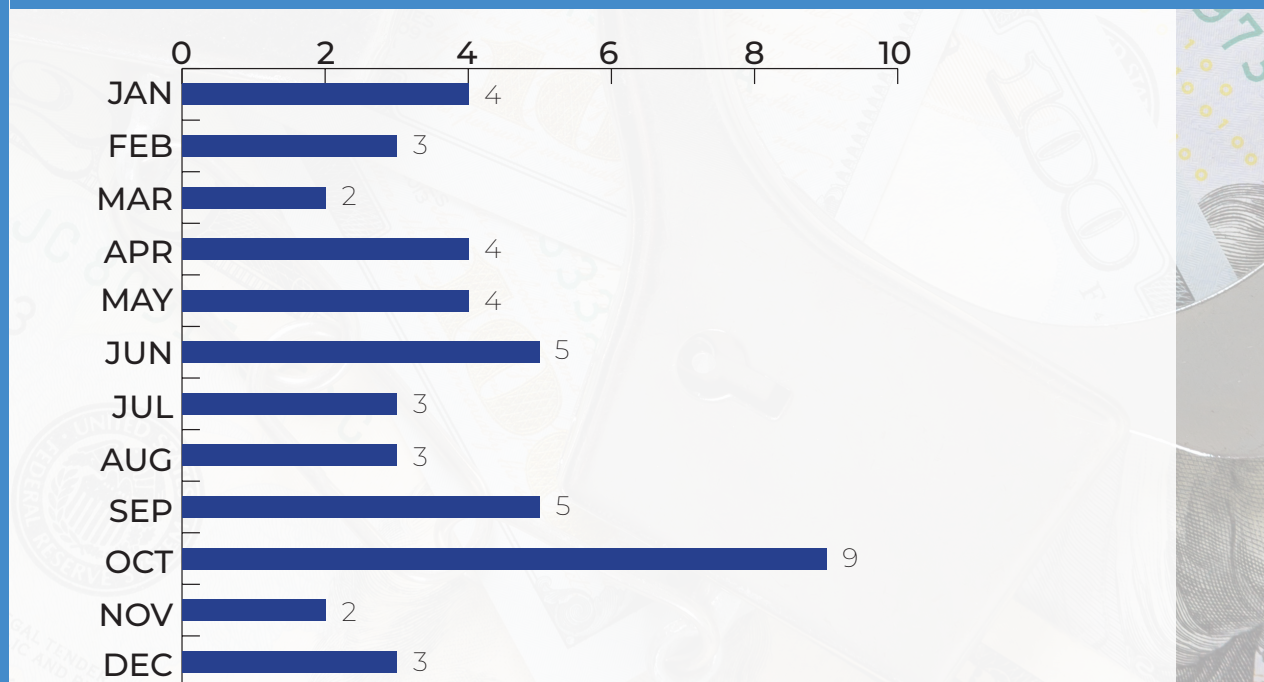

DEFINITION: The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

2016-2020 ROBBERIES

2020 ROBBERIES BY MONTH
