

# Rapid Re– Housing Program

Rapid re-housing is an intervention designed to help individuals and families to quickly exit homelessness and return to permanent housing. The core components of a rapid re-housing program are housing identification, move-in and rental assistance, and rapid re-housing case management and services. Rapid re-housing assistance is offered without preconditions and the resources and services provided are typically tailored to the unique needs of the household being served. Space is dependent upon funding availability.
