

PRIMA FACIE PETITION SECTION AND SIGNATURE COUNT SUMMARY PAGE

*Please Note the following:

The prima facie count does not subtract these items from the total count:

- A voters request to withdraw their signature from a petition
• Duplicate signatures
• Errors made by the signature gatherer that would render the petition void
• Non-registered voters within the County of Alameda

*Someone attempted to strike signatures on the petitions using a black marker, the prima facie count included all visible signatures, even if they were visible beneath the black marks.

*The Prima Facie count takes into account all visible signatures that include the information required in Elections Code Section 100(b).

*The Prima Facie count is signature count, not a determination that signatures are valid.
