

For Member of the City Council

Ben Barrientos

Occupation: Teacher/Administrator

I have enjoyed living in Livermore for 24 years with my wife Ann. For my career I chose education and began teaching kindergarten up through middle school. I was appointed union negotiator for the teachers in Oakland, promoted to Assistant Principal, and elected to the Board of Trustees of Berryessa School District. While teaching, I coached different sports. Now I'm coaching high school wrestling. Being President of Livermore Lions Club for 12 years has given me many opportunities to help others. I served on Alameda County's Grand Jury and learned the importance of viewing evidence in great detail.

As your representative on City Council, I will bring more incentives for energy and water conservation and protect open space, like the Garaventa Hills. A police substation north of 580 would provide quicker response times. I support relocating the proposed downtown Eden Housing project to a nearby site so a beautiful central park can be enjoyed by all. Affordable housing should include teachers, first responders, and essential service personnel. I encourage transparency in our local government.

I ask for your ideas and concerns, and your vote. www.BenBarrientos.com
